

**This is not your father's Swiss Army knife.  
It's more like your great-great-grandfather's.**

**Introducing the 1893 Heritage Swiss Army Knife.** The company that would become known as "Maker of the Genuine Swiss Army Knife" was created in 1893. To honor that year we've built 1,893 replicas to the specifications of the very first Wenger Swiss Army knife. Individually numbered, each includes a wood and leather presentation box, certificate of authenticity and reproduction of the original plans. Truly, this is a unique collectible of heirloom quality; naturally, it's also fully functional for generations of use.

SINCE  
1893
